Search Urged For Jap War Caches In B.C.

By NORMAN M. MACLEOD
OTTAWA, June 29.—(BUP)—British Columbia members of parliament are formulating demands for an intensive hunt for Japanese war caches in the Pacific coast for gasoline and other supplies believed to have been cached there by Japanese forces before their removal from the area. It was learned today that the search was being conducted by the P.B.I. authorities along the United States Atlantic seaboard, which resulted in the arrest of eight alleged Axis spies who had been landed by submarine. Thomas Reid, Liberal Member of Parliament, told British Columbia today that he was apprehensive of the whole situation. "I expect it is something new for Japanese to be landed on our shores from continuing craft of various kind. That has happened continually ever before the war."

MANY NAUTICAL OFFICERS
"Then consider this," he continued. "I know for a fact that many Japanese who have been fishing off our shores in recent years have been Japanese naval officers. That fact has been proven beyond all doubt."

"Furthermore," he said, "it is also a well-known fact on the Pacific coast that in the early months of this year Japanese gasoline by British Columbia fishermen were greater than ever before. Japanese who used to buy their gasoline simply from service station pumps suddenly took to buying it in 45-gallon drums. They also purchased heavily increased quantities of blasting powder."

Reid claimed furthermore that the coast Japanese early in the year had been purchasing new trucks on a noticeable scale. He said it was his belief that the Japanese had a "mobile fifth army" virtually organized in British Columbia by the time Japan had taken into the war. The government should take energetic measures to track down its remnants, he said, and particularly to discover any supply caches that had left for enemy submarines.

Yanks Transfer To Own Forces

LONDON, June 30.—(CP)—The United States army will absorb 100,000 Americans now in the Canadian army in a ceremony tomorrow "somewhere in England." The transfer will be at the men's request in accordance with a Canadian-American agreement.

Nab Nazi Spies

LONDON, June 30.—(CP)—Two German parachutists, each equipped with a two-way radio set, were arrested by Turkish authorities three weeks ago on the Caucasian border. Reuters reported today in an Ankara dispatch.

SASKATOON, June 30.—(CP)—The prairie farm debt conference in session here, today studied proposals for improved machinery of debt adjustment. The alternatives under animated discussion were the plans proposed by the three provincial government delegations at Monday's session.

"The conference tried to choose between a board set up by the Dominion government with powers vested by the Dominion and the provinces, as suggested by Alberta; a common tribunal vested with powers by both the Dominion and the provinces, as suggested by Saskatchewan; or a land court as proposed by Manitoba."

The representatives of the three provincial governments supported the main arguments for their proposals of Monday, but there was evident among the members of the conference a spirit of give-and-take with the view to reaching a proposal that would be expedient and satisfactory.

Premier Bracken Opens Discussion

Opening the discussion, Hon. John Bracken, Premier of Manitoba and chairman of the gathering, said the question appeared to be: "What is the better way of changing the procedure of dealing with debts?" Should it be a modification of the present federal machinery or by establishing some body vested with the joint powers of the federal and provincial governments?

Mr. Bracken said that in his opinion the plan of a land court would be better in the long run than the present federal legislation, although it might be more difficult to get the land court than to get some modification of the federal legislation.

The process of education required for the former would delay action. He concluded that it would be expedient to seek a modification of the existing federal legislation.

Raises Constitutional Question

The Hon. J. W. Estey, spokesman for the Saskatchewan government delegation, raised the constitutional question. He said that there was "a substantial body of opinion" in Ottawa that appreciated the western debt problem, but the difficulty had been the controversy over the constitutional matter.

There was a strong opinion that the constitution had to be rewritten, but that required conferences on intricate matters. He believed it would be easier to get the establishment of a common tribunal in view of the war conference he said he was willing to abide by the decision of the conference.

Mr. Estey said that he agreed with the Hon. Stuart Garson that the existing bankruptcy legislation was not effective for the farm problem. New sections would be required in the Farmers' Creditors' Arrangement Act, but something flexible was needed to take care of variations in financial standing due to the hazards of farming. "Can the Farmers' Creditors' Arrangement Act take care of that?" he asked.

Believes Tribunal Is Needed

He thought a tribunal was needed. Moreover, the proceedings should be under provincial authority, Mr. Estey declared. Provincial autonomy was important.

The Saskatchewan minister concluded by saying that his delegation was sincere in working with those of the two other provinces and the farm organizations in seeking a solution of the problem.

Mr. Garson maintained that there was no constitutional question with regard to the F.C.A.A. as it had been held by the courts to be within the scope of the federal government's power. He said the provincial government could invest the F.C.A.A. with its powers.

Mr. Garson's objection to the F.C.A.A. was that it was "emergency legislation" for a temporary problem. "It is a basic misconception and a fallacy," he asserted. The farm debt problem, he said, would be a permanent one for the next 40 years because of the hazards of the agricultural economy.

Provision For Bankruptcy

The Manitoba minister said there should be adequate permanent provision for bankruptcy. He did not mean to apply the methods of mercantile bankruptcy to farmers, but farm debts should be cut whenever it was necessary. He said this could be done by federal authority in the same way that mercantile bankruptcy was handled by federal authority.

Mr. Garson said that the Manitoba land court was a permanent remedy for a permanent problem. With a fixed court and independently, it would have the prestige that no temporary body could have.

M. M. Porter, K.C., counsel for the Alberta Wheat Pool, suggested that the delegates should not care on the constitutional issue. Bankruptcy was not a dishonorable state. It was continued on Page 16 Col. 6

Govt. House May Be Used For War Purposes

It was indicated here Tuesday that Government House, former residence of the lieutenant-governor, may be used to provide accommodation urgently needed in Edmonton due to war exigencies.

Hon. W. A. Fallow, minister of public works—the department which has charge of government house—said Tuesday he had been approached by Mayor John W. Fry and representatives of the Edmonton Chamber of Commerce with the request that accommodation available in the West End building be used as a means of overcoming the shortage of buildings for war purposes.

WANTS REPORT

The minister said he had informed the delegation that he would be unable to recommend the use of government house for these purposes until he had received a definite report on the amount of accommodation that would be required and the exact use to which it would be put.

If such a report were submitted the minister might consider Government House, Mr. Fallow declared.

The minister pointed out that the government had a large investment in the building and would have to be assured that it would be properly maintained. He also said he would consider the requests which had been submitted.

Today's War Moves

By LOUIS F. KERNLE
Copyright, 1942, by the British United Press and The Edmonton Bulletin

The outcome of the Battle of Egypt may depend on Britain's ability to overcome the obstacles of time and distance and get sufficient reinforcements to the Nile country before Marshal Erwin Rommel steam-rolls the Suez canal.

Some reinforcements already are arriving. They include men from the second New Zealand expeditionary force, presumably drawn from Syria, and according to London reports, large numbers of American troops, equipment, planes and air crews.

Even more than men, what Gen. Sir Claude Auchinleck urgently needs is up to 100 tanks, artillery

MAKE THREATS

Nazis Complain Allies Inciting Suppressed Peoples To Revolt

By JOHN A. FARREIS
LONDON, June 30.—(BUP)—The German foreign office published Deutsche Diplomatische Korrespondenz complained today that the Allies were inciting the residents of occupied territories to revolt.

In letters dropped over country under control of the Axis powers and in the case of the promise the early arrival of British and American forces and appeal to assist the Allies by armed revolt.

The publication was quoted by Radio Berlin.

Despite the Allies' propaganda, the German foreign office said, the residents of the Reich and the Reich-occupied territories were not being incited to revolt.

The German Broadcasting Service said the British Broadcasting Corporation quoted Dr. Moravcsik as saying that the Allies were inciting the residents of the Reich and the Reich-occupied territories to revolt.

Royal Visit To Canadians

Canadian soldiers overseas were thrilled recently when they were visited by Their Majesties the King and Queen. Typical men's rations invoked the King's question to Queen Elizabeth, "Do you think you could eat all this in one day?" Included in the picture with Their Majesties are: Capt. G. P. B. Reid, Major Bingham of London, Ont., and other officers not identified.

MUST DEFEND NILE

British Evacuate Matruh To Fight In More Vital Battle

200 Nazi Tanks Destroyed In 2 Days By Soviets

By HENRY G. CASSEY
MOSCOW, June 29.—(AP)—Soviet forces on the Kursk front north of Kharkov have cut off German infantry forces for these purposes until they had received a definite report on the amount of accommodation that would be required and the exact use to which it would be put.

As I write, British forces which had been threatened with disaster have fought their way through the enemy columns to join the main army.

There is a tremendous ebb and flow as the British army takes up new positions.

Tanks, going faster than I believed a tank could move, are racing along the road westward from Alexandria, the corridor falls into the hands of German Field Marshal Erwin Rommel.

At the same time, the menace to big British forces from the left is being reduced.

With the enormous tank losses inflicted upon the Germans, Red Star tank units have been drained from the German attack and that Red defenders hurried back subsequent German attacks.

In the two other violently active battle areas, German's war-wary defenders failed to beat back reinforced German tank troops, positions from which they launched a 48-hour assault, and on the Kharkov front.

Machine Lack To Force Cut Road Program

Alberta's 1942 highway program may be seriously curtailed due to the lack of the machine government program.

Included in the equipment loaned to the province are two large scrapers used for road construction. The minister said these scrapers can "churn off" 100 cubic yards of dirt at a time. They can be used for leveling of airfields.

ROYAL VISIT TO CANADIANS

By EDWARD KENNEDY
CAIRO, June 30.—(AP)—Heavy raids by augmented Allied air forces on German-Italian tanks in the Egyptian desert battle area, and on battered Tobruk were announced today as British headquarters indicated the enemy had thrust eastward to the vicinity of Fuka, 140 miles west of Alexandria and 45 miles southeast of Matruh.

(Both the German and Italian communications claimed Field Marshal Erwin Rommel's men had reached the area of Fuka.)

British headquarters said large forces of Axis tanks and vehicles were met and forced back Sunday night. It was announced that the enemy again advanced yesterday and today, but was in progress in the same area.

From New Zealand troops, fighting with the New Zealand division, bolstered the British defence line, the observer said. Royal Air Force bombers attacked the Egyptian desert battle area, and on battered Tobruk were announced today as British headquarters indicated the enemy had thrust eastward to the vicinity of Fuka, 140 miles west of Alexandria and 45 miles southeast of Matruh.

EXTENSION OF ACT TO MANITOBA ASKED

Alberta Proposes Sweeping Debt Adjustment Changes

Revision Would Provide Greater Protection For Farmers On Debt Issue

SASKATOON, June 30.—(CP)—Delegates attending the prairie farm debt conference in session here yesterday, unanimously endorsed a resolution urging the federal government to put the Farmers' Creditors' Arrangement Act into effect in Manitoba on the same basis as it is in Alberta and Saskatchewan.

The action was taken in response to a query from Premier John Bracken as to the attitude of Alberta and Saskatchewan on the matter of support for Manitoba in gaining debt legislation which had been withdrawn from that province.

The endorsement also followed a lengthy address by Hon. Lucien Maynard, Alberta minister of municipal affairs.

Seek Solution For Three Provinces

Mr. Maynard said that "when we called this conference, we came here to work out proposals which would be acceptable to all three western provinces."

The conference here followed a meeting several weeks ago at Edmonton at which representatives of the Alberta government and farmers' organizations drew up proposals for adjustment of debt problems. It was following this meeting that the Saskatoon conference was called.

Many Amendments Advocated

Numerous amendments to the Farmers' Creditors' Arrangement Act were advocated by Mr. Maynard on behalf of the Alberta government at the afternoon session.

The delegates last night met in committee. The gatherings were closed to the press.

Premier Bracken told the conference that Manitoba "is prepared to help and to share with the other two provinces the responsibility of working out a scheme acceptable to all three provinces" and asked the meeting to support Manitoba's efforts to gain "even the limited jurisdiction now available in the matter of general debt treatment."

"... Our task is to make ourselves as efficient as possible, one of the most important steps in that process is to deal definitely with our present debt problem."

Statement On Position Asked

The Manitoba premier asked the conference to state its position with regard to Manitoba.

In answer to the request, Hon. J. W. Estey, attorney-general and leader of the Saskatchewan delegation, asked the Saskatchewan delegates had come to take part in the formulation of plans "which we hope will be acceptable to all three provinces."

He said further that while the Saskatchewan government had given considerable attention to the debt problem, and had submitted concrete proposals to the conference, out and dried plan had been evolved which would preclude the possibility of working out a common solution.

Mr. Maynard listed 19 amendments which he advocated would give the board wider powers in the adjustment and settlement of debts and extensive changes in the procedure under the F. C. A. Act.

Decentralization Of Work Proposed

He said the Alberta government proposed that work under the act be decentralized by using the facilities of the district court offices of the judicial districts in the provinces.

Proposals for the solution of the farm debt problem in the west were made by the governments of Alberta and Saskatchewan and by the following farmers' organizations: the Saskatchewan Wheat Pool, the United Farmers of Canada, Saskatchewan section, and the Alberta Farmers Union.

The Hon. Stuart Garson, provincial treasurer of the Manitoba government, submitted a comprehensive proposal for the Manitoba delegation.

Press Admitted To Sessions

The delegates reversed their decision of the morning with regard to the press, and agreed to allow reporters at the meeting during the submission of proposals. The action was taken on a motion of Frank Elision, secretary of the United Farmers of Canada, Saskatchewan section.

In presenting the Alberta brief, Mr. Maynard said his government had kept the following principles in mind: First, the present setup was unsatisfactory. Second, it must be remembered the country was at war and extra financial burden should not be placed on the federal government. Third, any solution should be simple, practical and reasonable.

Mr. Maynard said his delegation was prepared to listen to any better proposal or to one not so good, provided it could be agreed on.

Changes Advocated By Alberta

The following changes in procedure were advocated by the Alberta government:

1.—The clerk of the court should take the place of the official receiver under the Farmers' Creditors' Arrangement Act, and carry out the work formerly done by that official. In a district where there is no clerk, a deputy clerk should be appointed.

2.—A local board consisting of a district court judge having jurisdiction in the judicial district where the farmer resides should be constituted with all the powers herein set out. (This should enable a farmer debtor to have easy access to the local board and permit the board to

have a more personal knowledge of conditions in the district and to have personal interviews with the debtor.)

3.—The local board should have the assistance of a barrister residing in the district and a farmer appointed and approved by a farmer organization and one who has been and is a member of a farmer organization to act in an advisory capacity and to investigate and secure information relating to each application on behalf of the board.

Appoint Representative Of Debtor

4.—A board of review similarly constituted to the one now existing under the Farmers' Creditors' Arrangement Act, composed of a judge of the supreme court, a representative of the debtor, to be appointed after consultation with the farmer organizations, and a representative of the creditor, should be set up to act as a court of appeal, and there should be provision for an appeal by either the creditor or the debtor from the decision of the local board.

5.—A farmer who is unable to meet his liabilities as they become due may make a proposal for a composition, extension of time or scheme of arrangement.

6.—(1) If the total indebtedness of the farmer contracted prior to July 1, 1936, exceeds 80 per cent of the fair value of all of his assets, he shall be deemed insolvent at the date of his application, then the total debt of the farmer so assessed shall be included under the total of his indebtedness and he shall not be permitted to reduce his total indebtedness to 80 per cent or less of the fair value of his assets as assessed as provided by the act.

7.—The total indebtedness of the farmer should not exceed 80 per cent of the fair value of his assets and the board considers that the farmer has paid an excessive amount of interest at an excessive rate having regard to the amount which has already been paid or the value of the improvements developed of the farm or for any other reason, it may reduce the farmer's indebtedness on such basis as it may deem reasonable.

8.—In any case where the indebtedness does not exceed 80 per cent of the fair value of the farmer's assets the board may without prejudice the indebtedness, extend or alter the terms of payment.

9.—Any proposal confirmed by the board shall provide for payments to the creditors in such amounts as the board considers the farmer can reasonably pay having regard to the present and prospective earning capacity of the debtor to perform the obligations prescribed and the productive value of the farm, and in the case of debt bearing in-

terest, the indebtedness shall be adjusted to provide that the rate of interest will not exceed five per cent per annum.

10.—(1) Debts incurred by the farmer subsequent to the first day of July, 1936, may, with the consent of the creditor, be included in the proposal.

(2) If the content of the board has not been obtained, the creditor has not been included in the proposal but will not reduce the amount of the debt but may alter the terms and conditions of payment.

11.—After the execution of a proposal by the board, and prior to the expiration of five years, a debtor may apply to the board to rescind the proposal made under the Farmers' Creditors' Arrangement Act, and under this scheme and upon satisfying the board that conditions have been met since the making of the proposal which make it impossible or desirable for the debtor to carry out the proposal upon such terms and conditions as the board may deem advisable.

12.—In case default has been made by the debtor in carrying out the terms of the proposal or after proceedings at a proposal formulated under the Farmers' Creditors' Arrangement Act, or under this scheme without leave of the local board, provided that such action shall be granted if the debtor default in carrying out the terms of the proposal is due to causes beyond his control.

13.—A debtor or a creditor may apply to the board of review whose decision shall be final.

14.—A definition of "debtor" should be included in the proposal so to conform with the definition of debtor now in the Farmers' Creditors' Arrangement Act, so that a debtor could apply to have a proposal formulated even though there was no priority of contract be-

tween the debtor and the creditor.

15.—Farmer means—(1) A person whose principal occupation consists in farming or the tillage of the soil.

(2) A person whose principal occupation is farming and who has retired therefrom and has either owned his own property or sold it under an agreement for sale or transferred it and taken a mortgage thereon for purchase money on which payments are owing to him.

16.—The provisions dealing with application by a creditor of a deceased farmer should be enlarged to apply in respect of a deceased farmer, regardless of date of his death.

17.—Approval in view of the fact that under this proposed scheme the valuation of property of the land and chattels of the debtor is of the utmost importance, it is suggested that both the creditor and the debtor be permitted to submit valuations by competent appraisers to the board, and that the board be authorized to appoint appraisers to the board, and that the board be permitted to use in case of dispute the valuation of independent appraisers to be placed upon the local board.

18.—Whenever a proposal has been presented to the board, the local board may order the creditor or the debtor to execute a mortgage, discharge of mortgage, conveyance or other instrument necessary to give effect to the proposal.

19.—No action or proceeding to judgment or effect a seizure in respect of debts incurred after such date shall be taken or made against the property of the debtor without leave of the board.

20.—After the execution of a proposal by the board, and prior to the expiration of five years, a debtor may apply to the board to rescind the proposal made under the Farmers' Creditors' Arrangement Act, and under this scheme and upon satisfying the board that conditions have been met since the making of the proposal which make it impossible or desirable for the debtor to carry out the proposal upon such terms and conditions as the board may deem advisable.

21.—In case default has been made by the debtor in carrying out the terms of the proposal or after proceedings at a proposal formulated under the Farmers' Creditors' Arrangement Act, or under this scheme without leave of the local board, provided that such action shall be granted if the debtor default in carrying out the terms of the proposal is due to causes beyond his control.

22.—A debtor or a creditor may apply to the board of review whose decision shall be final.

23.—A definition of "debtor" should be included in the proposal so to conform with the definition of debtor now in the Farmers' Creditors' Arrangement Act, so that a debtor could apply to have a proposal formulated even though there was no priority of contract be-

tween the debtor and the creditor.

24.—Farmer means—(1) A person whose principal occupation consists in farming or the tillage of the soil.

(2) A person whose principal occupation is farming and who has retired therefrom and has either owned his own property or sold it under an agreement for sale or transferred it and taken a mortgage thereon for purchase money on which payments are owing to him.

25.—The provisions dealing with application by a creditor of a deceased farmer should be enlarged to apply in respect of a deceased farmer, regardless of date of his death.

26.—Approval in view of the fact that under this proposed scheme the valuation of property of the land and chattels of the debtor is of the utmost importance, it is suggested that both the creditor and the debtor be permitted to submit valuations by competent appraisers to the board, and that the board be authorized to appoint appraisers to the board, and that the board be permitted to use in case of dispute the valuation of independent appraisers to be placed upon the local board.

27.—Whenever a proposal has been presented to the board, the local board may order the creditor or the debtor to execute a mortgage, discharge of mortgage, conveyance or other instrument necessary to give effect to the proposal.

28.—No action or proceeding to judgment or effect a seizure in respect of debts incurred after such date shall be taken or made against the property of the debtor without leave of the board.

Debt Ceiling For Farms New Proposal

SASKATOON, June 30.—(CP)—"As long as we have a ceiling on the potential revenue of the farms in western Canada, we should have a ceiling on debt," A. T. Sproule, vice-president of the Saskatchewan Wheat Pool, said in an address to delegates attending the prairie farm debt conference here yesterday.

Mr. Sproule presented the brief for the Saskatchewan Wheat Pool, and stated that in the opinion of that body, no solution to the problem of farm debt could be found without finding a solution to the entire agricultural problem.

"Agriculture," he said, "was Canada's first war casualty, and some drastic action would have to be taken to cope with a drastic condition which was being imposed on the farm."

Much of the debt adjusted in Saskatchewan in 1936, he said, was all paid off by the time of the first adjustment, and this was one of the factors which was stopping many thousands of farmers from appearing in the Farmers' Creditors' Arrangement Act.

"The debts of the province were still on the increase, he said, in spite of the fact that two boards were operating, and in spite of the fact that about 8,000 farmers had received a debt reduction of 44.5 per cent."

Frank Elision, secretary of the United Farmers of Canada, Saskatchewan section, said on behalf of his organization that the government must provide legislation to revalue the land and equipment of farmers, recognizing their equity through payments of rent, and through payments of interest.

"The amount of the debt thus arrived at should be amortized over a period of 20 years at interest rates not to exceed three per cent, he said."

H. E. Nichols, spokesman for the Alberta Farmers' Union, said adjustment of farm debts should be made so that the losses due to farmers should be shared by the government, recognizing their equity through payments of rent, and through payments of interest.

"The amount of the debt thus arrived at should be amortized over a period of 20 years at interest rates not to exceed three per cent, he said."

"The amount of the debt thus arrived at should be amortized over a period of 20 years at interest rates not to exceed three per cent, he said."

BRACKEN SPEAKS

Farm Debt Conference Support For Manitoba Adjustment Plan Asked

SASKATOON, June 30.—(CP)—"We want to see the laws of Canada apply to whoever needs them," Premier Bracken said in a review of Manitoba's position at the prairie farm debt conference here yesterday.

"Manitoba," he said, "is prepared to help and to share with the other two provinces the responsibility of working out a scheme acceptable to all three provinces."

"I hope the time never comes when the western farmers will not stand up for the right to occupy a position in Canadian economy. Not one with special privileges, but one of equality."

"The problem of placing agriculture in that position," he declared, "is not an easy one, and it is a great deal outside the scope of provincial legislation, as it involves matters concerning trade and finance."

"However," Mr. Bracken stated "within our limited sphere, our task is to make ourselves as efficient as possible, one of the most important steps in that process is to deal definitely with our present debt problem."

"We may not like our limited jurisdiction, but as long as it is limited, there are two courses open to us, either to strive for greater powers with the provinces, or to make a unified effort to have the dominion laws changed."

"The Manitoba farmer since 1939 has been denied every facility for debt adjustment, and I think this situation ought to be cleared up. If you from the other two prairie provinces cannot give the province your support in this matter, I feel there is no hope of unanimity in this conference," he said.

"The Manitoba farmer since 1939 has been denied every facility for debt adjustment, and I think this situation ought to be cleared up. Taking care of today AND TO-MORROW

In her magnificently trained fighting army, Canada has built one of the Empire's hardest hitting forces.

Today, Canada salutes her valiant sons—proud of her stalwarts in uniform.

Tomorrow, when world freedom has been won, a strong nation will see that "all the men in all the lands may live out their lives in freedom from fear and want." And tomorrow, as in the past, life insurance will provide the means for protecting families, educating children and taking care of old age.

THE GREAT-WEST LIFE ASSURANCE COMPANY

OUR 1942-43 ANNUAL REPORT

G. F. MAGLESTEIN — BRANCH MANAGER — MLEOD BLDG., EDMONTON

OUTLOOK FOR CONSUMER "VERY BAD"

Gigantic U. S. War Program To Be Met Congress Told

18,000,000 Tons Ships,
125,000 Planes Will Be
Built During Next Year

WASHINGTON, June 30.—(AP)—Congress received a report from Donald Nelson yesterday that plane, tank and ship objectives will be met but that the outlook for the consumer "is very bad."

Legionnaires

MAJ. G. P. HEAD

The chairman of the War Production Board made these statements in reviewing work of the W.P.B. before a House of Representatives appropriations subcommittee.

"I believe that we are over the hump," he said, and from now on it becomes a question of improvement in process, of getting better distribution of raw materials. . . . He told the subcommittee that President Roosevelt's goal of 18,000,000 tons of shipping would be met. He said he was "certain" we will meet the tank objective."

125,000 PLANES

The government currently is setting up facilities to meet the quota of 125,000 planes next year, he said. Having the output for the consumer is very bad," Nelson said the country would have enough food and clothing and would be "incomparably better off" than England or Germany. He said Great Britain's rationing system permitted one suit of clothes a year, along with one or two shirts and one or two pairs of underwear.

But, he said, it may not be possible to have all kinds of shoes a person might want, new homes can not be built, and there may be insufficient rubber for other than essential auto driving.

Military May Try German Saboteurs

CAPT. W. C. TRIMBLE

WASHINGTON, June 30.—(AP)—There were indications last night that a military court might try the eight men accused of landing from German submarines on the east coast to sabotage the United States war effort. This raised the possibility that the death penalty might be sought, but justice department officials declined to speculate along that line. Attorney General Francis Biddle issued a statement saying:

"The attorney general and members of his staff have been in constant consultation throughout the day with the secretary of war, the judge advocate general, and other war department officials."

"A further announcement concerning this matter may be expected within 48 hours."

Among the problems raised in connection with the prosecution of the case is the fact that two of the eight men are United States citizens.

Gneisenau May Be Out For Duration

LONDON, June 30.—(CP)—Photographs made by reconnaissance planes showed last night the German battleship Gneisenau was so badly damaged that three main 11-inch gun turrets had to be dismantled and 30 feet of forecastle deck removed, leaving British authorities to believe that she "may be out for the duration."

The 30,000-ton Gneisenau had been removed from Kiel to Gdynia, former Polish port, where the air ministry said it would be impossible to make large-scale repairs required to put her back into service.

The damage was inflicted, the air ministry said, in R.A.F. attacks on Brest and during the dash of the Nazi fleet from that French port through the channel.

Executive Dies

CHICAGO, June 30.—(AP)—Thomas J. Carver, 56, president of Sears, Roebuck and Company, died in hospital last night after an illness of five months. He had been suffering from a heart ailment.

During the California gold rush, Carver briefly had said for a while in that state.

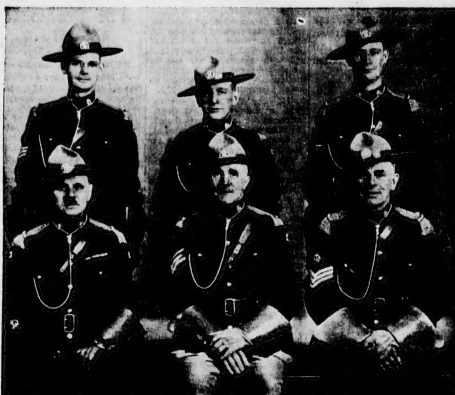

TARGET PRACTICE

By Charter

(Remember Army Week)

Civilian Defence Workers In Uniform

Civil defence workers in uniform. That is the Legion of Frontiersmen, (Canadian Division). Men capable of tackling any job that may come along, trained and ready for any emergency that may disturb Edmonton's peaceful calm, disciplined, and pledged to loyalty to the British Empire, eager for any public service. In the above group are: Back row, Q.M.S. Davies, S.M. Barlow, Sgt. Henderson. Front row, S.M. Sawyer, Q.M.S. Simpson, Q.M.S. Tomlinson. The Legion of Frontiersmen, Canadian Division is ready to assist in public service, on call from constituted authority. The men are ready for any public service. They are volunteers, a corps of "irregulars," following their civilian occupations, men of experience and trained in almost any capacity where it is possible to be a specialist. Within the ranks are men trained in St. John's Ambulance, signalling, radio, military drill, transport, marksmanship, air raid precaution work, and police duties. They have been allotted exclusive posts by the Chief of Police for special work in air raid or other unusual emergencies. These posts are permanent for the duration of the war, and each man reports to his post individually upon the sounding of the alarm.

UNIFORMED MEN

They are uniformed men who receive no pay for their services, many of whom are deprived of more active duties owing to physical disabilities, from previous war service, but who are anxious to do their part in the protection and defence of the country, and who consider the satisfaction of giving public service, a fitting reward for their efforts.

Under the command of Maj. G. P. Head, provincial commander, are units established in Edmonton, Calgary, Red Deer, Camrose, Killam, Thorhild and Spirit River.

Such is the Legion of Frontiersmen

(Canadian Division) now actively engaged in recruiting new members for civilian defence work to replace members in active service.

USEFUL TRAINING

The Legion is open to enlist members of service clubs, and other similar organizations, with a view to giving them useful training in police work, military training, first aid and A.R.P. work, under the supervision of efficient and well trained Officers and N.C.O.'s, said Maj. Head.

The Legion of Frontiersmen (Canadian Division) with headquarters at Edmonton, under the command of Lt.-Col. Louis Scott, C.M., has now over 4,200 strong throughout Canada, and is actively engaged in semi-military, and police work throughout the Dominion.

RECEIVE RECRUITS

Applicants for enrollment in the Corps are being received under the supervision of Capt. W. C. Trimble, 2nd in command, Provincial Command Headquarters, and Training Centre, 1004 103 avenue, Edmonton, every Monday evening.

Egypt Is Assured Defences Ready

CAIRO, June 29.—(Delayed)—(AP)—Great Britain has reiterated her determination to defend Egyptian territory "against any aggression" and has declared she "has the means and power to do so." Premier Mustafa Nuhass Pasha told the Egyptian parliament Monday that he had received the following message from Foreign Secretary Anthony Eden:

"The British government not only are quite determined to defend Egyptian territory against any aggression but have the means and power to do so. I am confident," Nuhass Pasha added, "and believe conditions are satisfactory. All rumors of withdrawal from one place or another are without importance. . . . defences are well prepared."

Niagara Defence

NIAGARA FALLS, Ont., June 30.—(CP)—Mayor George Inglis said yesterday he will ask civic and military authorities to establish an anti-aircraft battery here for defence of power plants. He was commenting on the round-up of enemy agents in the United States, found with plans for destruction of power plants at Niagara.

Russia, Britain Sign Pact For Lease-Lend Aid

MOSCOW, June 30.—(AP)—Great Britain and the Soviet Union have signed an agreement providing for financing of British military supplies sent to Russia, the Moscow radio announced today.

The agreement was signed June 27 in Moscow by British Ambassador Sir Archibald Clark Kerr, and A. I. Mikoyan, Soviet foreign trade commissar.

Under the agreement British military supplies will be delivered to the Soviet Union on a lease-and-basis.

The pact was made retroactive to June 22, 1941, the day the Germans invaded Russia.

The agreement does not concern the financing of British deliveries of raw materials and equipment of a general character which was covered in a previous understanding signed Aug. 16, 1941.

According to the terms of that agreement, Britain granted a credit of \$40,000,000 to the Soviet government. When that amount neared exhaustion recently Britain granted an additional credit of \$10,000,000.

Commenting on the signing of the various agreements, the radio said they created a "wide financial basis for military and economic aid from Great Britain to the Soviet Union."

Tokyo is 2,235 statute miles to the southwest of Dutch Harbor.

Albertans Given Observers Badges

At Flying School
MOSSBANK, Sask., June 30.—(CP)—Group Captain F. C. Higgins, Commanding Officer of No. 2 Bombing and Gunnery School, Mossbank, presented Air Observers' badges over the week-end to a further class to be graduated under the British Commonwealth Air Training Plan. Alberta: A. J. Gibson, Edmonton; W. N. Gray, Lundbreck; H. P. Laskowski, Gleichen; M. Olyuk, Red Deer; J. H. Irwin, Calgary.

Author Dies

MINEOLA, N.Y., June 30.—(AP)—Roy Norton, 72, author and adventurer who won fame in many fields but was proudest of building the first golf course in the Sahara desert, died at the Meadowbrook hospital here after a lingering illness. As a friend of Rex Beach, Norton had followed the gold rush to Alaska, and penned "The Plunderers" in 1911 to tell of his experiences in the far north.

U.S. Marine And Girl Companion

Drowned At Peg
WINNIPEG, June 30.—(CP)—Police last night dragged the Red river in search of Carl Beaser, 23, a member of the United States Marine Corps, missing since Sunday when his companion, Miss Joyce Berg, 21, was drowned. The couple went canoeing Sunday evening and the over-turned canoe was found early Monday. Early last night the girl's body was found floating in the river some distance from where the canoe was located.

MASS MEETING

MASONIC TEMPLE

Tuesday, June 30th, at 8 p.m.

SUBJECT:

"Who Rules Canada . . . Pope Pius XII. or King George VI.?"

Speakers:

Dr. T. T. SHIELDS and Rev. HAROLD G. MARTIN

Dr. Shields is the internationally known Baptist minister from Toronto, and his fearless handling of such a subject will be intensely interesting at this particular time.

Mr. Martin has had many years experience with Romanism in the province of Quebec, and speaks from first-hand knowledge.

There will be some startling revelations.

FREE ADMISSION — DOORS OPEN AT 7:30 P.M.

EVERY week is Army week... AT HARVESTER

ARMY WEEK

June 29—July 5

*

IT IS ARMY WEEK! Seven days proclaimed to honor Canada's soldiers, nurses, CWAC. A week when the people of Canada give a rousing salute to the men and women now writing a new chapter in the distinguished record of Canadian arms.

In this observance—and in the tribute paid to the Canadian Army—International Harvester most heartily joins. It is well deserved appreciation and recognition; Canadians are proud of their Army and they want its personnel to understand.

Army Week—and every week—International Harvester's resources are actively giving solid support to the fighting forces, in three vitally important phases of the war effort, in addition to its traditional service to Agriculture.

Forging the Sinews of Victory

From our plant in Hamilton flows a steady stream of steel forgings for anti-aircraft and anti-tank guns of various types, for Wellington Bombers, for bomb throwers, gun carriages, artillery trailers and tanks. We're making malleable castings for Bofors anti-aircraft guns, army motor vehicles and other types of war equipment. And we're machining armor-plate and supplying complete malleable track for the Universal Carrier, and manufacturing complete armoured hulls for a new type of military vehicle.

Manufacturer Turns Teacher

When the Army needed schools for instruction in maintenance of all of the varied motorized equip-

ment of modern warfare, International Harvester was ready. We had expert instructors, data, tools, machinery, and 13 branch houses ideally located from coast to coast for instruction centres.

Thirteen hundred officers and other ranks have been trained in the sixteen months since the first school opened. They are in charge of practically all types of the Army's motorized equipment. They know their machines inside and out—how to keep them running, how to direct others in making repairs, in the field if need be.

Salvage for Victory

When the urgent need for getting in scrap metal became apparent, International Harvester again was ready. Through its far-flung organization it became the instrument for recovery of tens of thousands of tons of scrap lying useless in the barnyards and fence corners of Canadian farms, and now being converted to strength and power for the Armed Forces.

* * *

Every week is Army Week at Harvester. Our single objective is to help Canada steer her sure course toward Victory. Ours is another demonstration of the strength of business and industry, organized to do a job in the spirit of free enterprise—a job in defense of the Canadian way of doing things that will out-produce, and defeat, its Axis enemies.

Wagers Refused On Ten To Ace

WINNIPEG, June 30.—(CP)—No wagering will be permitted when

Ten to Ace, eastern Canada champion three-year-old, opposes six western breds in the second running of the \$3,000 added Canadian Derby at Polo Park here tomorrow. It was the second time in 13 years of the race, formerly the Manitoba Derby.

Derby, that betting at the pari-mutuels was closed due to an out-

standing favorite and a small field.
The other time was in 1937 when Goldure of the H. C. Haich Toronto stable came here.

Entered are N. J. Pitts' Winnipeg entry of Fighting Finn, leading western challenger, and Broom's Sentry; Wilch's Taxi, the west's leading two-year-old last season owned by J. J. Rose of Vancouver; Panbroom, owned by L. R. Knifton of Austin, Tex.; Maginot Line, owned by L. H. Appby of Vancouver; and Hawk Forreard from Capt. Stanley Harrison's Fort Qu'Appelle, Sask., stable.

Efficiency Award Goes To Ralston

For Long Service

For Long Service
OTTAWA, June 30. — (CP) — Award of the Canadian Efficiency Decoration to Defence Minister Ralston was announced today in a long list of long service and good conduct medals to members of the Canadian army made public by the national defence department here.

The Canadian Efficiency Decoration is awarded to an officer who has served 20 years in the Reserve Army. Col. Ralston served overseas in the First Great War and now is in the Cape Breton Highlanders.

Company.

SMASHING ATTACK MADE ON WARSHIP

Jap Cruiser Feels Vengeance Of U.S. Naval Planes

This Japanese heavy cruiser, her superstructure twisted and white-hot, her big guns (1 and 2) pointing helter-skelter, two torpedoes hanging half out of their tubes (3) and another dangling impotently from her side, felt the vengeance of carrier-based United States naval aircraft in the Midway victory. Listing badly she had scuttled to one row of her portholes. Huddled at stern (4) is a group of Japanese sailors.

Claire James, Kay Aldridge and Georgia Carroll—three of the loveliest of Hollywood starlets—pose somewhere on the lot in honor of the one hundred and sixty-sixth Day of Independence. They are members of the famous Navy Blue Sextette now being presented in Warners' "Yankee Doodle Dandy" which stars James Cagney as George M. Cohan.

Trench Warfare On Russian Front

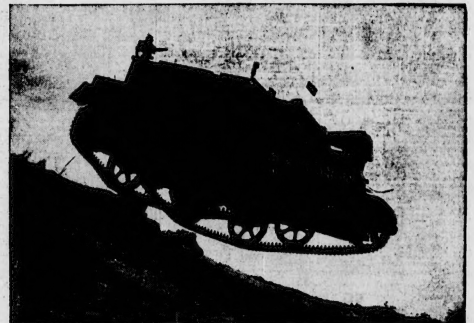

This spectacular under-fire picture, flashed from the Russian-German front, looks reminiscent of the trench warfare days of 1914-1918. Picture shows entrenched Russian troops under an enemy artillery barrage, with shells exploding perilously close.

Torn Between Two Tones

With legstick becoming as important as lipstick, lovely Mary Allen Gould tests this new substitute for the vanishing silk stocking at a bare leg bar in New York.

Roughriders Of Canada's Army

Canadian soldiers send their sturdy Canadian-built carrier flying over the brow of a knoll during manoeuvres at Camp Borden. With expert service crews to keep them rolling, machines are not spared in training men for the toughest brand of modern warfare. When these boys come up against the enemy they'll be the equal of the toughest battle-scarred warriors.

It DID Happen Here

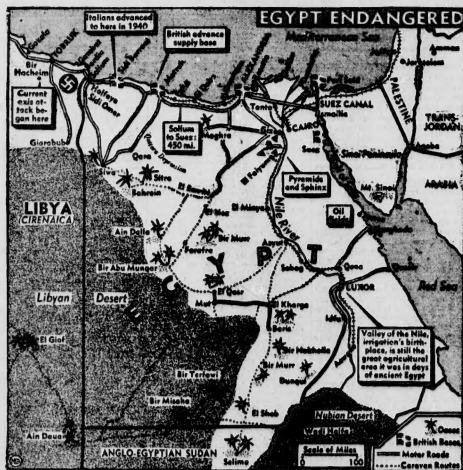

This photo is such a powerful argument against complacency that it looks almost like a fake. It isn't. Two years ago a resort near Seaside, Oregon, put up this sign, implying "It Can't Happen Here." Here is just where it did happen. An unidentified sub shelled the beach near Seaside. There was no damage, no casualties.

"Hellfire Pass" Lives Up To Its Name

Battle-scarred Hellfire Pass again feels the heavy hand of Mars as the Germans move from Libya across the Egyptian border. Sign "POW," lower right, stands for "prisoners of war," was erected by British prisoners to protect themselves from RAF bombing during earlier fighting.

Egypt, battleground for Persians, Macedonians, Romans, Arabians, Turks and British in centuries past, now faces invasion by a German-Italian army thrusting eastward from Libya. Because southwestern Egypt is a mass of desert land, dotted with a few oases, the coastal highway remains the only feasible route of attack on Alexandria, the Suez Canal and the rich Nile valley. Egypt is still technically neutral.

Special Investigator

By Blanche Roberts

judith King and Tom were employees of an airplane factory. Following a recent quarrel, they are both sent to the firm's west coast branch—Judith to investigate a "leak" in the organization. Tom to take place of a missing member. Two reporters, Tom, the reporter, and Judith, the investigator, are sent to the plane for the three, which was being built in the town of San Diego. The plane was being built in a secret place, and the plane was being built in a secret place, and the plane was being built in a secret place.

CHAPTER V

The grinning driver opened the door and Judith climbed up into the truck without a second invitation. "Thanks," she said to him, relieved. "Where are you headed for?" "San Diego," he answered. "Where do you want to go?" "To San Diego. May I ride all the way?"

"Sure, baby, why not?" He pulled the truck back into the road. Judith settled back. This was a break, she thought. She had been in an easy prey to follow in the bandit car. This way, there was less chance of them catching up with her. The thought of Tom at her mercy was not a pleasant one, but he was right in telling her to get the plane safely to San Diego first. That was the important thing—their own harp and welfare must be forgotten for now.

"Can't we go faster?" she implored.

"This is a truck—not a luxury buggy," he laughed loudly at his own joke. "Where are you from?"

"Middle part of the country," she replied. "Got a job waiting for me if I get there in time," she lied.

"Hold Everything"

"Yeah, I used to work in a delicatessen how did you guess?"

"MOTHERLY WARD"

"Three of 'em? Gosh, you must certainly have a good priority number, brother!"

Curious World —By William Ferguson

THE NEGROES OF THE PHILIPPINES HAVE FOUND THE SILVER BOMB DARTS ON THE CROCODILES. ARE PERFECT WEAPONS FOR PICKING OFF JAPANESE IN THE FOREST.

SUGAR RATION BOOM IN THE PHILIPPINES. 30,000 POUNDS OF SUGAR.

NAME A FISH THAT IS BUILT TO BE USED IN DUELING. ONE THAT IS ABANDONED. ONE THAT IS MASTER OF A SHIP.

Answer: 1. Sword, blue shipper.

"How far are we from there?" She pulled her cigarettes out and offered him one. "Thanks," he said, and struck a match for them before he answered. "We are to be in the city tomorrow before noon."

At noon they stopped at a roadside cafe. Judith was ravenously hungry. She had not eaten since last night when the plane stopped. She ate greedily, her head bent over the plate. This she did not see as the two men enter the cafe and sit down at the other end of the lunch counter.

"Get me out of here quickly," she said to him far away.

The man and Judith stopped eating. He turned to look at her.

"Thanks," she said to him, relieved. "Where are you headed for?"

"San Diego," he answered. "Where do you want to go?"

"To San Diego. May I ride all the way?"

"Sure, baby, why not?" He pulled the truck back into the road.

Judith settled back. This was a break, she thought. She had been in an easy prey to follow in the bandit car. This way, there was less chance of them catching up with her.

The thought of Tom at her mercy was not a pleasant one, but he was right in telling her to get the plane safely to San Diego first.

That was the important thing—their own harp and welfare must be forgotten for now.

"Can't we go faster?" she implored.

"This is a truck—not a luxury buggy," he laughed loudly at his own joke.

"Where are you from?"

"Middle part of the country," she replied. "Got a job waiting for me if I get there in time," she lied.

"Hold Everything"

"Yeah, I used to work in a delicatessen how did you guess?"

"MOTHERLY WARD"

"Three of 'em? Gosh, you must certainly have a good priority number, brother!"

Curious World —By William Ferguson

THE NEGROES OF THE PHILIPPINES HAVE FOUND THE SILVER BOMB DARTS ON THE CROCODILES. ARE PERFECT WEAPONS FOR PICKING OFF JAPANESE IN THE FOREST.

SUGAR RATION BOOM IN THE PHILIPPINES. 30,000 POUNDS OF SUGAR.

NAME A FISH THAT IS BUILT TO BE USED IN DUELING. ONE THAT IS ABANDONED. ONE THAT IS MASTER OF A SHIP.

Answer: 1. Sword, blue shipper.

"How far are we from there?" She pulled her cigarettes out and offered him one. "Thanks," he said, and struck a match for them before he answered. "We are to be in the city tomorrow before noon."

At noon they stopped at a roadside cafe. Judith was ravenously hungry. She had not eaten since last night when the plane stopped. She ate greedily, her head bent over the plate. This she did not see as the two men enter the cafe and sit down at the other end of the lunch counter.

"Get me out of here quickly," she said to him far away.

The man and Judith stopped eating. He turned to look at her.

"Thanks," she said to him, relieved. "Where are you headed for?"

"San Diego," he answered. "Where do you want to go?"

"To San Diego. May I ride all the way?"

"Sure, baby, why not?" He pulled the truck back into the road.

Judith settled back. This was a break, she thought. She had been in an easy prey to follow in the bandit car. This way, there was less chance of them catching up with her.

,500 Expected Attend Joint Summer School University of Alberta

Summer schools sponsored by the provincial department of education and the University of Alberta will open Thursday, July 2, with registration of students. It is expected enrollment will total about 1,500, approximately 1,200 taking the department's courses and 300 the university's courses.

Girl Becomes First of Sex To Drive Taxi

Another girl has donned a jacket and steps into a man's job. The girl is Regina Spaul, 22, of 1015 1st avenue, and she is driving a taxi.

Miss Spaul has joined the staff of the Checker Taxi Co. other girls will be taken on in time to help in handling the company's taxi.

It is expected that within the next few weeks Miss Spaul and the other girls will be driving the Checker taxicab buses operating on the charter line to airports. Uniforms will be provided for the women taxi drivers.

Fire Destroys Hatcheries On South Side

The Forest Hatcheries, 81 street and Clever Bay Road, were completely destroyed by fire at 6:30 a.m. Tuesday. Cause of the fire is a match-burn that landed among the hatcheries.

The building and equipment was a total loss but the baby chicks were saved by C. J. MacLachlan, who was in the building when the fire broke out.

Scholar had installed an oil burner stove in the incubating room Monday night and at 6:30 a.m. Tuesday he was in the act of lighting it for the first time. The match-burned and landed into oil saturated shavings on the floor.

BUILDING LOST
Scholar carried out the baby chicks from other rooms but the equipment and building were a total loss.

Firemen from bills No. 2 and 6 responded but were handicapped due to lack of hydrants in the vicinity.

The building was a frame structure, 40 feet long, 20 feet wide and two stories high.

Gettin' Around

Continued from Page Eleven

It was first mentioned as an important weapon in the age of Carthage. The early catapults were used to hurl stones, as well as well as propelling gigantic rocks.

The effective range of these early siege machines was never greater than 200 yards.

According to the Encyclopedia Britannica, the catapults that supplied the motive force for all these devices were made of sinews of animals and were used to hurl stones and other missiles from a high point and in one celebrated case, of women's hair.

At the siege of the citadel of Carthage, having surrendered the walls to the Romans in the year 146 B.C., the Carthaginians were ordered to surrender their arms and their lives. The Romans, however, were not satisfied with the surrender of the city and they ordered the city cut off their hair to supply the needed sinews.

So it would seem there is really nothing new under the sun, even in this most destructive of all wars.

Speed and magnitude make this the most modern of all weapons, of course, responsible for the second world war.

Aviation has obliterated former front lines. His Majesty King George VI proved himself more than a match for the Germans when he landed the British people at the start of the second world war in the front line.

As yet relatively safe is the continued use of the atomic bomb. America is like a great dry pond upon which only a few hot sparks are yet to be kindled. But the flames could spread to the continent of the United States.

Fortunately we have here the first fire-fighting equipment in the world in the form of atomic resources and man's productive capacity.

Building Costs May Halt House

Building costs have materially increased this year that at least one of the prospective builders has not proceeded with the construction of dwelling under the city's revolving building plan. It was announced Tuesday by City Commissioner R. J. Gibb.

"Orders for the construction of the two houses were received at the city hall Monday. The tenders were Steve Huxley, \$12,250 for the two houses, and J. F. Turner, \$12,415.

Max Dewar, assistant city architect, stated that the average cost of two tenders was \$12,332.50, a 10 per cent increase over the cost of construction of similar houses in 1941.

One prospective builder has indicated he will abandon plans for the building this year. Mr. Dewar stated. Decision from the second prospective builder will be given late Tuesday, he added.

Boy Injured When Walks Into Auto

A two-and-one-half year old boy was injured when he ran into the front of a car at 101 street and 109 avenue at 3:35 p.m. Monday.

Richard Wuesthler, son of Mr. and Mrs. J. Wuesthler, 101 street, dashed away from the side of his mother and rode, rider, as they were crossing the intersection and ran into the front of a car that was coming to a stop.

The child was taken to a doctor's office when it was determined that he suffered no fracture. He was taken to the hospital where he was treated, but he was later removed to the General Hospital where treatment of possible internal injuries was given.

Arrives Overseas

Parade of the 13th Field Brigade R.C.A.F. has arrived overseas, according to word received by the British Empire. Mr. Henry B. MacLachlan, 107 127 street. He joined the R.C.A.F. on July 7, 1941. His father, Fred, Officer Walter MacLachlan, is in a plane crash in California recently.

Kids Are Glad: Schools Close, Holidays Start

Desks were cleared in city schools on Tuesday. Many of the well-said as 12,516 school children called a halt to studying for their two-month summer vacation.

School will resume early in September.

Many teachers will take summer school courses at the University of Alberta during the holidays, while students will devote their time between terms and play as well as the parents will work and others will just enjoy themselves.

Serve Country Addresses To Feature Meet Agriculturalists

Second annual meeting of the Alberta Federation of Agriculture will be held at the Grand Hotel, United Church hall at Red Deer, July 2 and 3, and will be featured by addresses by government officials and men prominent in Alberta's agricultural industry.

The address of welcome will be delivered by Mayor E. S. Hogg, Red Deer, and spoken to by the Hon. J. A. Brown, Minister of Agriculture.

Principles in Beef Marketing will be the topic of an address by L. B. Thompson, superintendent, Royal Canadian Mounted Police, who will speak at the Thursday afternoon session. John E. Brown, K.C., vice-president, United Grain Growers Ltd., will also speak during the afternoon session.

Minister of Agriculture, J. A. Brown, will speak at the Thursday afternoon session. He will speak during the afternoon session.

At the Friday morning session, W. H. Ross, manager of the Unemployment Insurance Commission, Calgary, will speak on "Preparing Agriculture for the Future." Don Cameron, chairman of the Provincial Farm Progress Committee, will also speak.

Election of officers will also be held on Friday afternoon. The meeting will close Friday evening with the meeting of 1942-43 directors.

MINISTER TO SPEAK
Problem of Bruce MacLachlan, minister of agriculture, and Dr. R. D. Sinclair, acting dean of the faculty of agriculture, University of Alberta, will speak at the banquet to be held Thursday evening, and which will be served by the women of Girls United Church. The impact of War Agriculture is the theme of Dr. Sinclair's address.

At the Friday morning session, W. H. Ross, manager of the Unemployment Insurance Commission, Calgary, will speak on "Preparing Agriculture for the Future." Don Cameron, chairman of the Provincial Farm Progress Committee, will also speak.

Election of officers will also be held on Friday afternoon. The meeting will close Friday evening with the meeting of 1942-43 directors.

Fair Weather Promised For Dominion Day

Continued from Page Eleven

In the British Empire, equal in status, is no way subordinate, one to another, in any aspect of their domestic or external affairs, though in the Crown, and the British Commonwealth of Nations.

Canada exerted this right when she entered the Second World War as the ally of Britain, freely and by decree of the Canadian Parliament.

As the third day of Canada's Army Week, Wednesday has a program of sports arranged for the soldiers stationed in the city.

Also on Wednesday, the R.C.A.F. will have a program of sports arranged for the soldiers stationed in the city.

A full card of sports attractions is being featured at the South Side Athletic Grounds in the Dominion Day program being held under sponsorship of the South Edmonton Business Men's Association. A grand stand show has been planned for the day.

Terminal courts, golf clubs, bowling greens, baseball diamonds and other sports centers will be popular with athletes and sportsmen during the holiday week.

TREK TO LAKES

Although gasoline and rubber shortage will limit transportation by car, heavy movements to lakes and rivers are expected during the day. Summer camps will be opened beginning two months holiday for school children who will live at home during the summer.

Fishing, boating, hiking and the popular cycling will also find their devotees during the day.

Chatterboxes in the city will be heard at all Dominion, provincial and civic buildings which will be closed for the day.

Also the police, district and auxiliary courts, law offices and stores, will be closed for the day.

Special shows have been arranged in city theatres.

The Edmonton post office, the wickets will be open from 8 a.m. to 6 p.m. to 6 p.m. There will be no letter carrier delivery during the day, although the special delivery service will be as usual, as will also the receipt and dispatch of mail.

A track and field meet will be held No. 4 Junior High School, I.T.S., at the Varsity Stadium, commencing at 1 p.m.

BOWLING MEET

There will be a big city lawn bowling tournament with all clubs, at the Waiver field, on the river flat at 11 street.

It is expected that the Civil Service tennis club, Thomas Walker, will be the champion, so that all

Store Opens 5:00 a.m., Closes 3:30 p.m. Daily.—Store Closed All Day Tuesday, July 1st To Call EATON'S, Dial 9-1-2

AT EATON'S, THURSDAY
